INTEGRATED
LMS

Efficient Exam Management

CREATION
Create, approve, print, and shuffle exam questions.

MANAGEMENT
Manage the entire exam process from creation to result release, including transportation and optical reading.
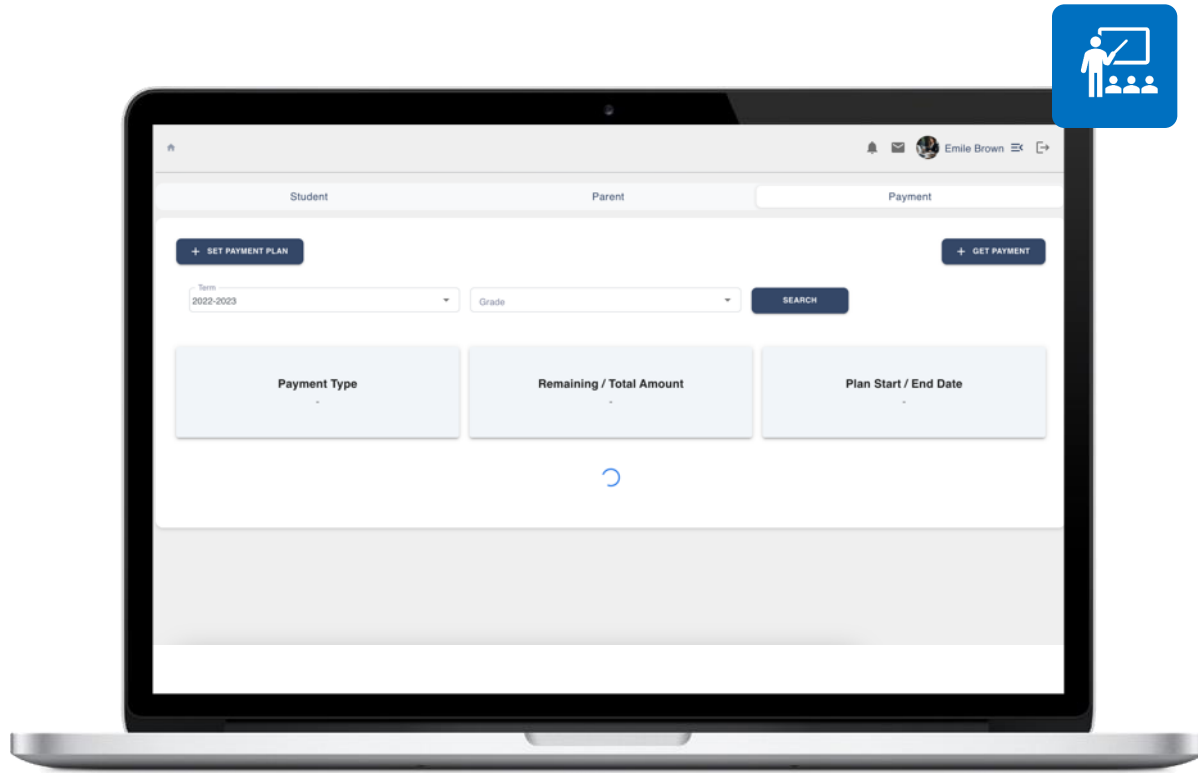

APPLICATION
Have mandatory attendance for specific student group or optional for students to apply.

SCOPES
Includes creating centralized country-wide exams, local exams for specific cities, and private exams for individual schools.

Financial Management

Manage expenses and incomes, payments to teachers, and student fees.

Empowering
Offline Education

Provides an environment for education without electricity or internet.

Schools are equipped with tablets with the FmssEdu app pre-installed for managing teacher, principal, and student information.

Tablets are charged via solar panels.

Teachers can show LMS videos, teach students, conduct the entire education process, enter exam results, track absenteeism, and add new students.

Data is periodically transferred to the central online system via micro SD cards or whenever the device has access to the internet.
