

We Bring the Power of Nature to Wood

Quality forest products solutions from Turkey to the world

Products

At Akdeniz Orman Istanbul, we offer durable, high-quality wood products to suit a variety of needs. With our environmentally friendly approach, we provide a wide range of solutions, from interiors and exteriors to furniture and industrial applications.

About Us

The foundations of Akdeniz Orman Istanbul were laid in the early 1900s as a small lumber sales shop in Kasımpaşa, Istanbul. Until 1970, our company met the local wood needs of the region, and with the rapid development of the furniture industry, it took important steps towards growth by increasing its product variety.

In 1986, our company began producing lumber from logs at its new 4,500 m² facility in Pendik, Istanbul, and in 1990, it strengthened its position in the sector by becoming a corporation under the name **Akdeniz Orman Ürünleri Sanayi ve Ticaret A.Ş.** Thanks to its R&D efforts, which are based on the use of the highest quality raw materials and the best products, the company has become a leader in the industry.

In 2006, the company laid the foundations for one of the world's largest machinery parks in the timber production sector in Tuzla Orhanlı, and began production in its modern facilities in 2008.

Akdeniz Orman Istanbul imports logs directly from tropical regions, ensuring they meet its own quality standards, and supplies them to customers in customized, dried, and profiled forms according to their needs. All imported logs are sourced from legal and sustainable forests, and every stage of the process is meticulously monitored.

All our products are prepared in accordance with quality classes and offered in the quantities and specifications requested by our customers.

At Akdeniz Orman Istanbul, our high-quality wood offers aesthetics, durability, and functionality across a variety of applications. From urban design and boatbuilding to garden furniture and flooring, we provide our customers with the best solutions for a wide range of applications.

Boat Building

Cabana / Pergola

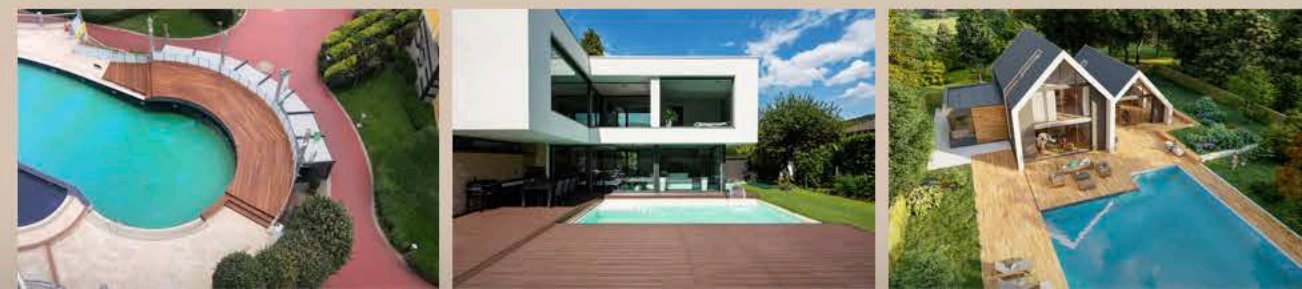

Garden Furniture

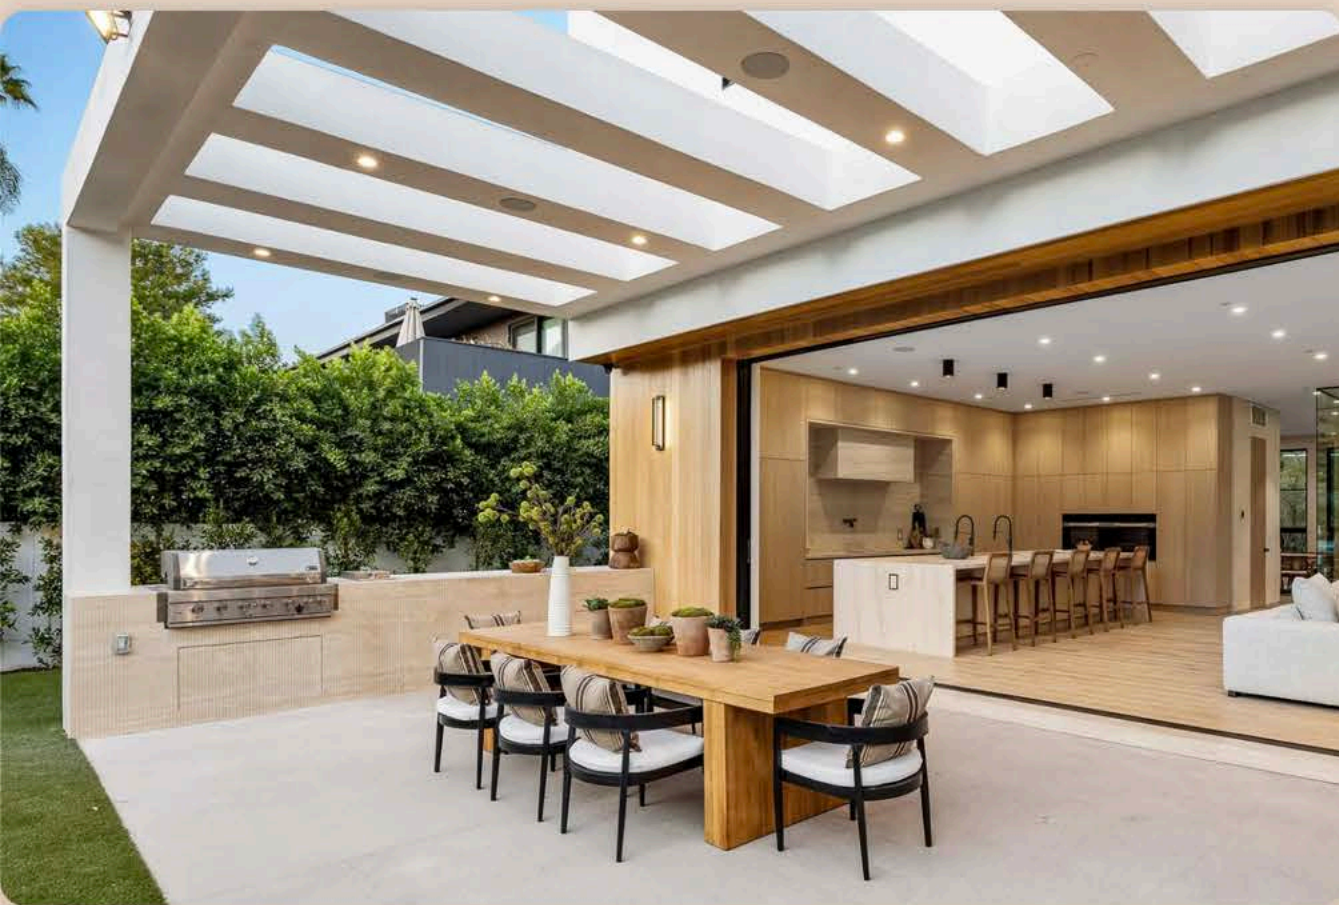

Our carefully crafted wood for garden furniture offers both aesthetics and durability in outdoor spaces. Pieces such as armchairs, tables, chairs, and pergolas are crafted to withstand weather conditions and add a warm atmosphere to your garden. Their natural texture and rich tones provide a delightful outdoor experience.

Interior and Exterior Flooring

Our woods, used in interior and exterior flooring, offer both aesthetic and long-lasting solutions. They are ideal for pool decks, parquet flooring, and paneling. Their durability ensures safe use in all seasons and adds a natural elegance to any space.

Projects

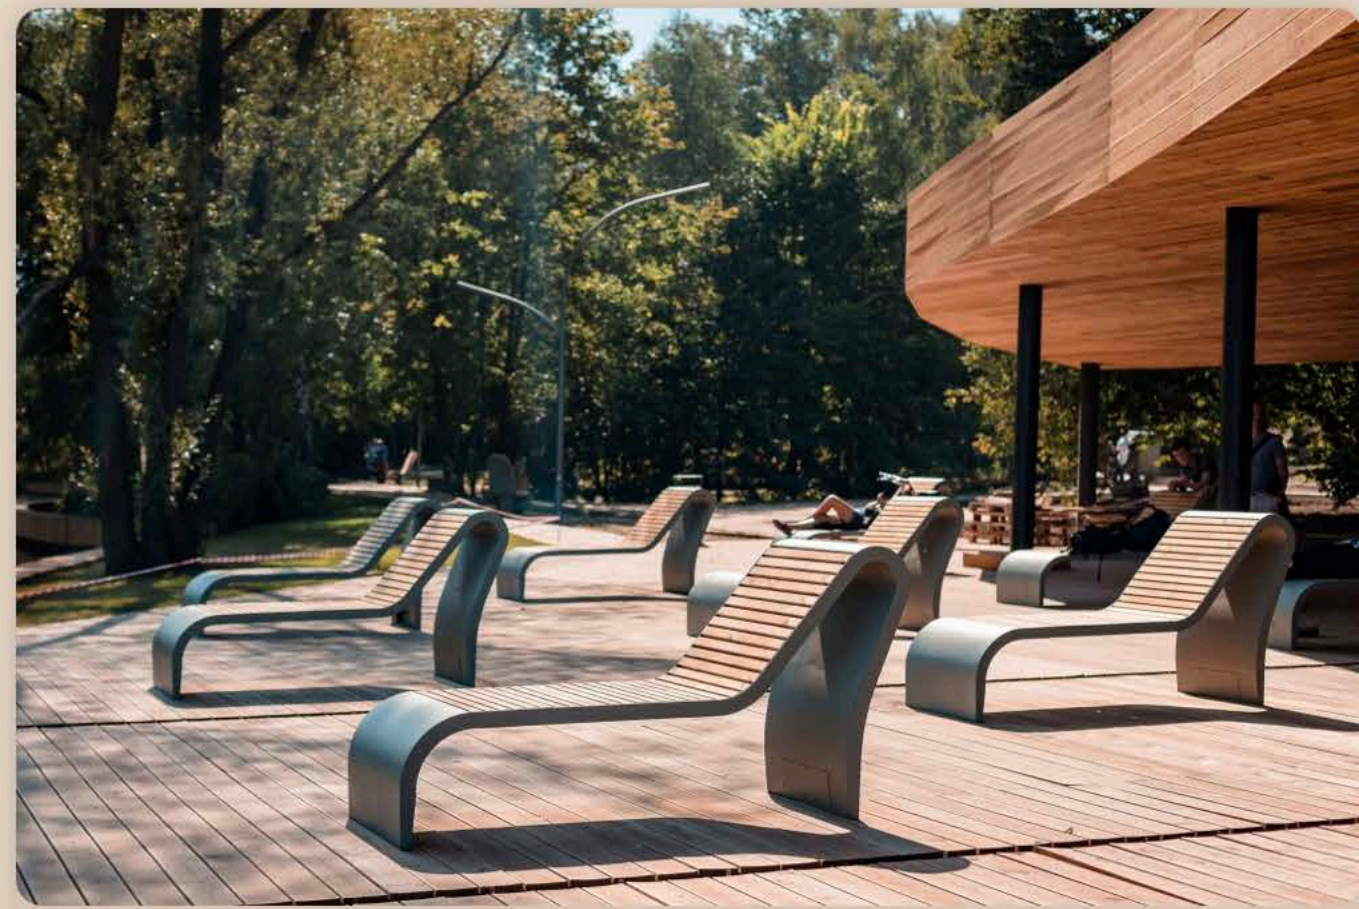

Saunas

Our Ayous wood, specially selected for saunas, combines luxury and comfort. Its smooth texture and light color create a peaceful atmosphere. Its natural resistance to moisture and heat ensures long-lasting use, while its lightweight structure allows for easy installation.

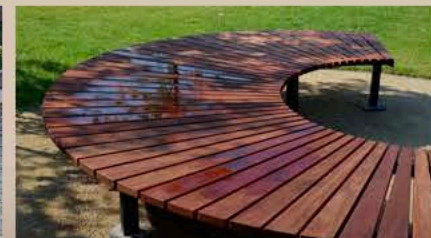

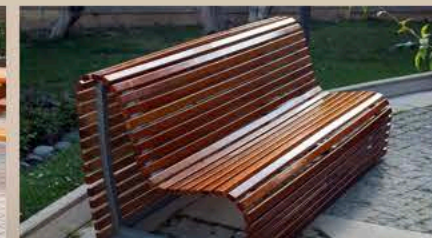

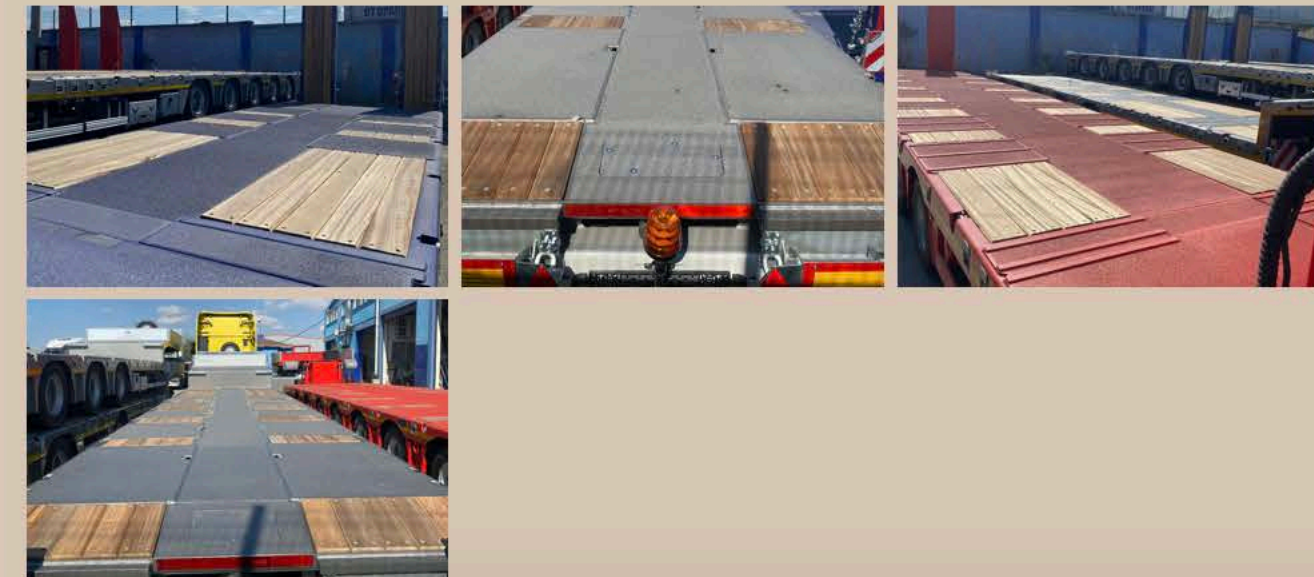

Treyler Wood

Urban Furniture

Our wood combines aesthetics and functionality in public spaces. Ideal for benches, picnic tables, pergolas, and more, our high-quality wood offers superior durability and performance against heavy use and changing weather conditions. From parks to city squares, it offers a timeless and sustainable solution for every space.
