PRODUCTS

- **CABLE HARNESS, ASSEMBLY ve CUSTOM SOLUTIONS**

In line with the customer technical requirements, cable harness, cable assembly and other solutions

Terminal box assembly compatible with production of oven or any cooking products

Cable gromet, strain relief and socket solutions compatible with small home appliance and white good productions

QUALITY MANAGEMENT

Modernized Labarotary, High Technology Equipment Ekipman and Experienced Team

- ✓ Shore hardness tester
- ✓ Miliohmmeter
- ✓ Drying oven
- ✓ Tensile testing machine
- ✓ Optical projector
- ✓ Glow-wire test machine
- ✓ Crimp section analyze machine
- ✓ Shimadzu GCMS QO2022 NX

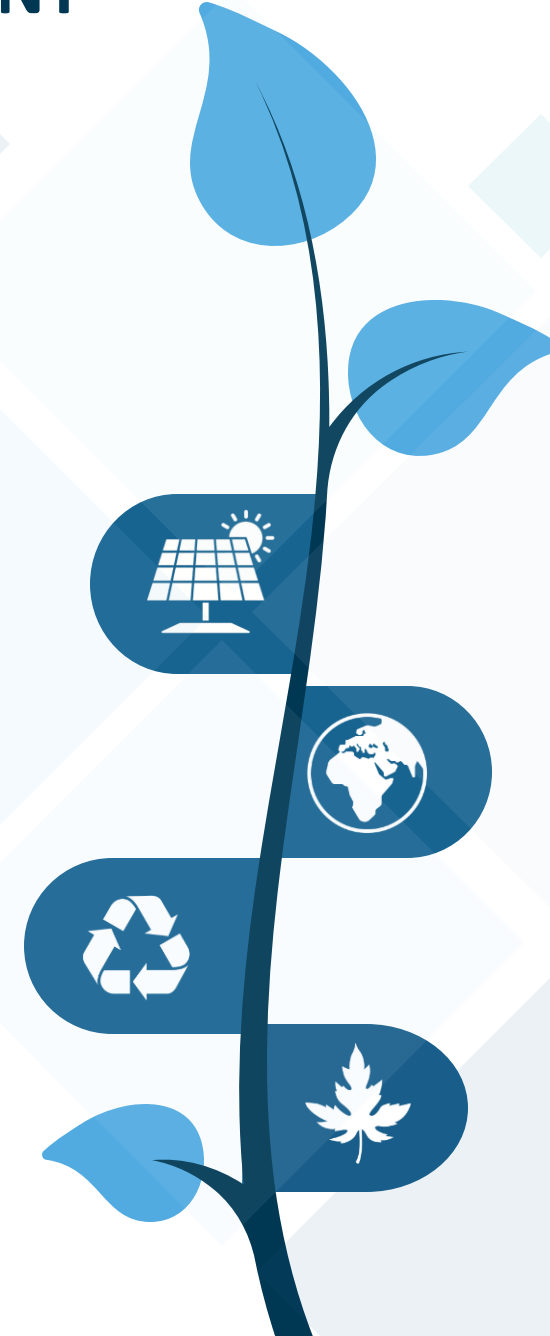

QUALITY MANAGEMENT

To support the green transition and strengthen our energy security, we have strategically planned our solar power investments.

Within the province of Kayseri, we have designed a solar power project on a 60,000 m² site with an installed capacity of 4,650 kWp.

In the first phase, solar panels with a capacity of 1,040 kWp have already been contracted, and operations are scheduled to begin in the second half of 2025
