All Orders in One Screen — All Processes Automated

With Propars:

- Orders from all marketplaces are managed through a single dashboard
- Each order is automatically routed to the correct warehouse
- Orders can be transferred to your ERP or e-commerce platform
- Shipping forms are generated automatically via carrier integrations
- Invoices and return processes are managed centrally and efficiently

Automation & Multilingual Capabilities

- Price and inventory updates are instantly synchronized across all platforms
- Product content is automatically translated into each marketplace's language
- The platform can be used by teams in multiple languages, regardless of location

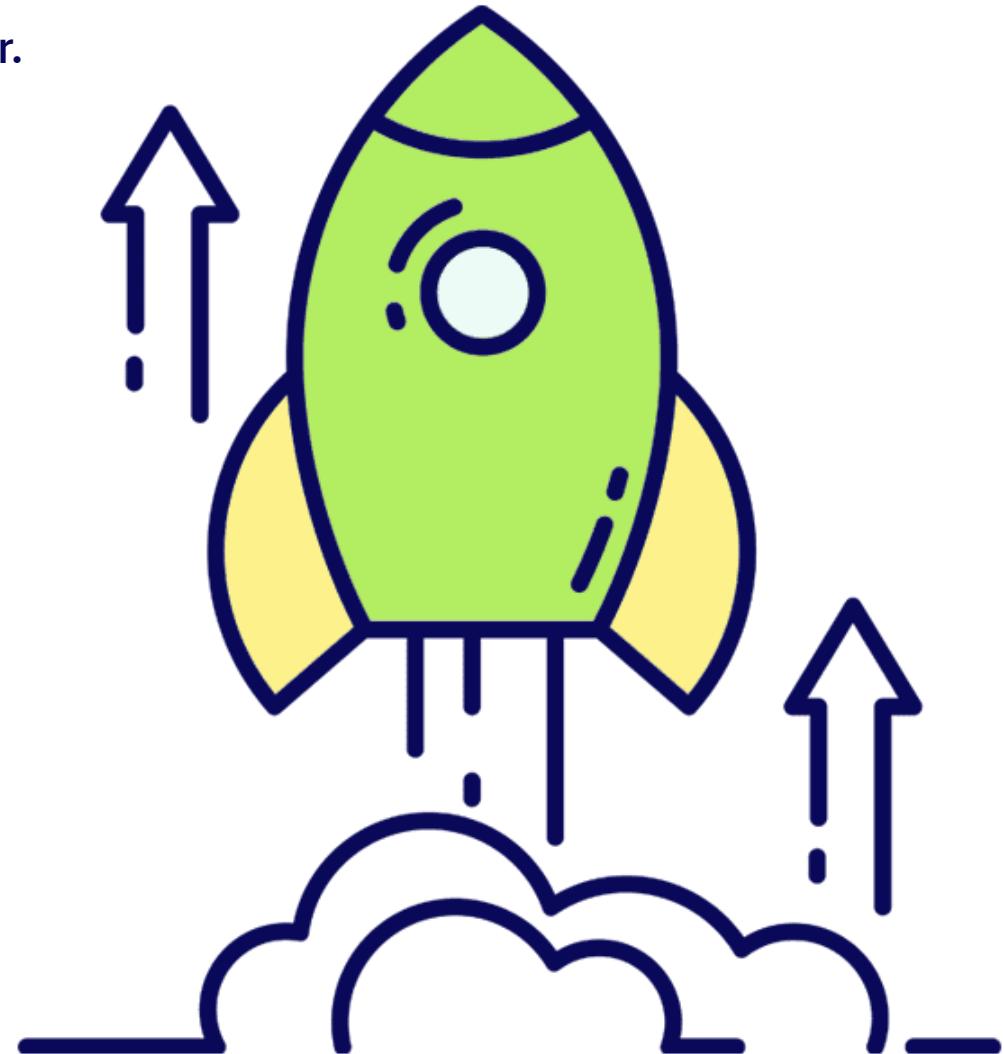

Propars Goes Beyond Technology

propars

Propars is not just a software solution — it's a strategic partner.

We support brands with:

- Product, competitor & market analysis
- Business plan development
- Marketplace account setup & performance management
- A+ content and Storefront design
- Campaign management: ads, coupons, Vine programs
- Strategic consulting for marketplace growth
