

Half a century ago, we set out on a journey committed to excellence and a better future.

Every project bearing the TREYSAN name has come to life through the hard work of our employees, the ingenuity of our engineers, and the trust of our business partners. We have stood by every promise we've made.

To date, we have undertaken energy, defense, construction, mining, infrastructure, and industrial projects in over 85 countries around the world, spanning six continents.

As the regional leader in our sector, we are proudly celebrating our 50th anniversary this special year. We are honored to be operating simultaneously across a vast geography—from South America to Micronesia, and from Northern Europe to the Middle East and West Africa. We take pride in offering technical solutions tailored to different climates and living conditions, as well as management approaches adapted to diverse business cultures.

With the confidence and responsibility that come from being part of the IC Holding group, we will continue to grow and evolve with our stakeholders, leveraging the technical and commercial expertise we have built over the past fifty years. We remain committed to becoming a global brand synonymous with trust, creating sustainable value—everywhere, and at all times.

We extend our heartfelt thanks to all our employees, business partners, and customers who have made this journey possible.

LOOK AROUND THE WORLD, YOU WILL SEE US!

OZAN AKKAYA
General Manager

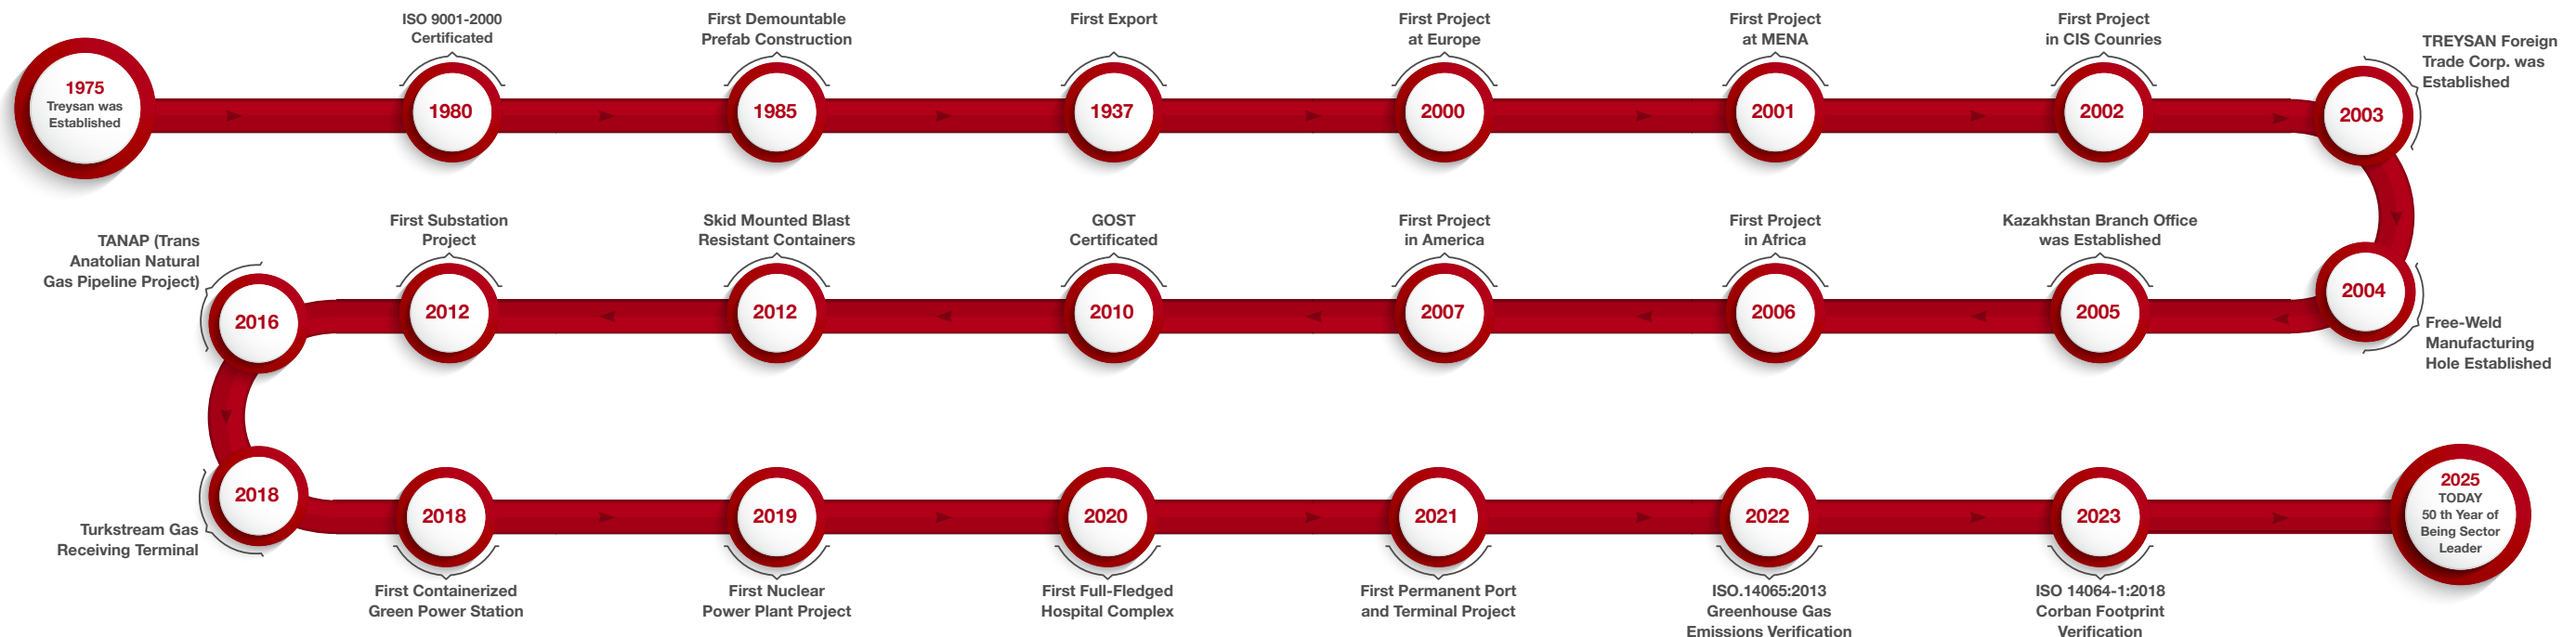

treysan

SINCE 1975

Treysan Prefabrik ve Çelik Yapılar Sanayi ve Ticaret A.Ş., a member of the IC Holding group, was established in 1975 in Ankara. Since then, Treysan has been serving many key sectors with its wide product range, including containerized and prefabricated camp solutions, permanent steel buildings, pre-engineered buildings, drilling camps, and industrial solutions for substation containers, E-houses, and central control rooms. Treysan began its operations with a participatory management approach that promotes respect for people and awareness of social responsibility. From its establishment to the present day, Treysan has continued to provide services to diverse industries, exporting nearly 75 percent of its production to international markets. With a global presence spanning five continents, the company is proud to be the leading brand in Turkey and one of the most distinguished companies worldwide, thanks to its project-based design and production processes.

In addition to the high-quality products manufactured at its state-of-the-art facilities in Ankara, Treysan also delivers comprehensive services including design, engineering solutions, assembly and installation, after-sales services, logistics, supply of furniture and equipment, fire detection and extinguishing systems, heating, cooling and ventilation systems, and commissioning. Treysan offers a fast-track, custom-designed wide range of products to ensure easy installation and transportation. Far from being temporary solutions, Treysan products represent long-term assets for construction companies and investors, thanks to their long design life and adaptability for multiple uses across different projects over time. Treysan delivers exactly what it designs and promises, helping clients successfully complete their projects and enabling them to focus on what they do best.

HALF A CENTURY OF EXPERIENCE

SECTOR LEADER

Treysan has become well-organized and prepared to satisfy its customers' expectations in the best possible way at all times, and acts on the principle of fully performing and timely fulfilling all of its obligations and commitments.

Treysan Prefabricated is proud to be the sector leader in Turkey, enjoying recognition among some of the most reputable global brands, and looking toward a bright future with a strong reach spanning 85 countries across six continents.

We offer a worldwide network with the ability to service customers across the globe. We maintain industry accreditations and provide the highest-performing products in internationally certified manufacturing facilities.

ABOUT TREYSAN

Treysan Prefabricated & Steel Construction Corp., founded in Ankara in 1975, provides temporary and permanent prefabricated camps, prestigious buildings, drilling camps, and industrial solutions such as Substation Containers, E-houses, and Control Rooms. With its high-tech Ankara plant, Treysan delivers not only top-quality products but also design, engineering, installation, logistics, equipment supply, after-sales service, and commissioning to support clients at every project stage.

OUR VISION

To become a globally recognized and preferred brand, guided by the principles of sustainability, reliability, and innovation.

OUR MISION

We focus on customer needs and provide reliable, innovative solutions. We create sustainable value for our employees, business partners, and society by embracing quality and continuous development.

OUR VALUES

At Treysan, we are committed to:

- Continuously increasing stakeholders' satisfaction and value, while driving development with a focus on targets, efficiency, and empowerment.
 - Demonstrating sensitivity and respect for people and resources throughout the entire product cycle.
 - Building long-term partnerships founded on honesty and trust.
 - Acting with a strong sense of social responsibility.
- We are taking firm steps toward the future by upholding and protecting these values.

IC Holding, founded in 1969, operates in Construction, Energy, Tourism, Industrial Works, and Infrastructure. Guided by strategy, participation, respect, and social responsibility, it has become a global brand through partnerships in the Middle East, Central Asia, Europe, and Russia. With 45+ years of experience, its goal is to further strengthen its global position.

OUR PRODUCTS

Customized Solutions for Every Industry and Requirement

Containerized Buildings:

Treysan, offers high quality, long-lasting and functional container structures with project-based flexible design and production. It meets the building needs of different scales from single container modules to multi-storey complex building solutions.

Mobilization Camps:

Treysan provides modular mobilization camps engineered for fast deployment and durability in remote locations. Each camp integrates living, working, dining, and sanitary units tailored to project needs. Our solutions ensure comfort, efficiency, and long-term performance under challenging conditions.

Panel System Buildings:

Treysan's high-tech panel system structures offer safe solutions in all climates with their fast production, easy installation, and portability. Produced with Robopanel technology, these structures are suitable for multi-purpose use, from construction site camps to social facilities.

E-House, Substation and Control Buildings:

Treysan's E-House and Equipment Buildings stand out in the sector with innovative solution offers and wide service advantages at all stages from design to commissioning. Modular, flexible and always tailored to your needs, E-House structures are time-saving, cost-effective container or prefabricated solutions. E-House are modular stations that are shaped according to demands, assembled and tested beforehand. Ideal for use where workarounds are required or in hard-to-reach places. The main reason for this is that it is easy to assemble and operate.

Permanent Steel Buildings:

With its specially designed permanent steel structures, Treysan offers practical solutions that are mostly used as residential and office complexes and provide design flexibility and aesthetics, cost-effectiveness and time advantage compared to conventional structures.

Rig Camps:

Skid mounted containers also known as "mobile drilling camps" suitable for all climatic conditions at the drilling sites. They can satisfy the needs and accelerate the process of relocation with the sliding skid system it's equipped with under harshest conditions in Oil & Gas fields. Skid mounting solutions TREYSAN provides easy relocating and fast start-up.

Pre-engineered Buildings (PEBs):

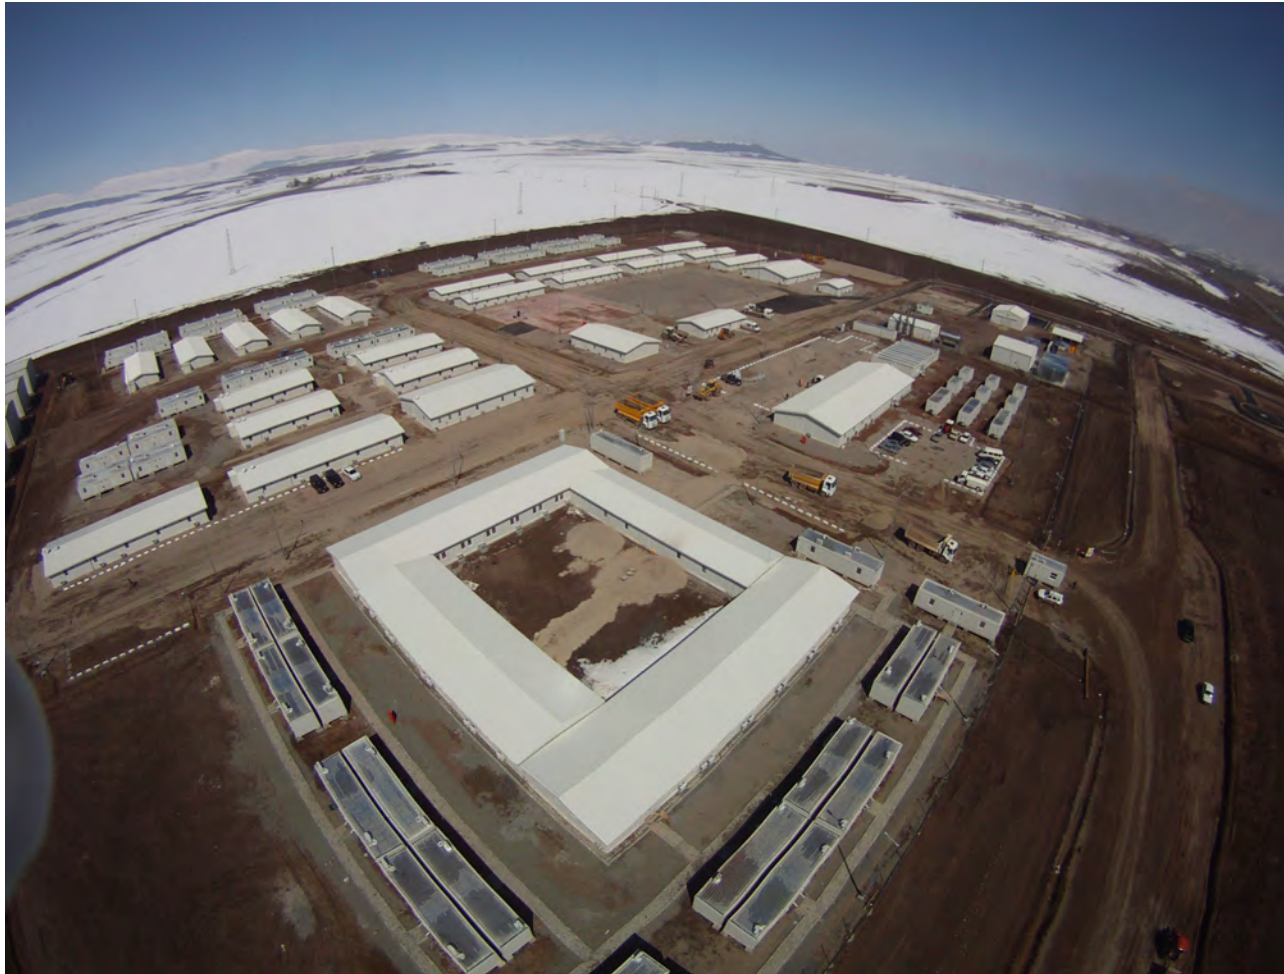

Quick and cost-saving alternatives for a wide range of sites, Treysan's pre-engineered steel buildings are ideal in terms of their flexible dimensions, speedy production and easy dismantling or relocation that is suitable for installation in any area of the world as well as use over longer periods of time.

Steel Structures and Fabrication:

Treysan offers fast and reliable solutions in permanent steel works with project-based secondary steel productions, including ISBL and OSBL production.

TRANS ANATOLIA NATURAL GAS PIPELINE (TANAP)

Sector : Oil and Gas
Year : 2017
Location : TURKEY

TURNKEY PROJECT - 3000 men capacity
 Design, Supply, Transportation and Installation of Camp Buildings.

Scope also includes supply of AC Units, Kitchen & Laundry Equipment, Furniture etc.

AKKUYU NUCLEAR POWER PLANT

Sector : Nuclear Energy
Year : 2018
Location : TURKEY

Design, Supply, Transportation and Installation of office buildings, camp buildings and secondary steel structures, Scope also includes supply of including Fire Alarm Systems, Fire Suppression Systems, HVAC systems.

TRIPOLI SOUTH POWER PLANT MOBILIZATION BUILDINGS

Sector : Energy
Year : 2024
Location : LIBYA

The building complex—including the office building, engineer dormitory, foreman dormitory, worker dormitory, kitchen & dining hall, and laboratory building—was delivered as a turnkey project. All phases of the project, including production, transportation, and on-site installation of the structures, were completed in an integrated manner.

TUZ GOLU UNDERGROUND NATURAL GAS STORAGE PROJECT

Sector : Oil and Gas
Year : 2019
Location : TURKEY

Design, Supply, Transportation and Installation of over 100.000 m² closed area office buildings, mobilization camp facilities, pre-engineered steel structures

MERIAN GOLD PROJECT GOLD MINE SITE

Sector : Mining

Year : 2015

Location : SURINAME

Design, Supply, Transportation and Installation of CAMP BUILDINGS, Panelized System Buildings, Containers & Pre-engineered Steel structures.

CAP DES BICHES COMBINED CYCLE POWER PLANT PROJECT

Sector : Energy

Year : 2020

Location : SENEGAL

Design and Supply of over 12.000 m² mobilization camp complex contains single and multi-story panelized office buildings, dormitories, recreation units, mess halls and pre-engineered steel warehouses.

ROMPETROL COGEN POWER PLANT PROJECT

Sector : Energy

Year : 2020

Location : ROMANIA

Design and Supply of over 6500 m² mobilization camp complex contains single and multi-story panelized office buildings, dormitories, recreation units, mess halls and pre-engineered steel warehouses.

NORTH MARMARA HIGHWAY PROJECT | Construction Camps

Sector : Construction

Year : 2012

Location : TURKEY

Design, Supply, Transportation and Installation temporary and permanent VIP office building and camp complex.

SAND AND STONE QUARRY MOBILIZATION CAMP

Sector : Mining
Year : 2025
Location : TURKEY

Within the scope of our mobilization camp project for sand and stone quarry workers, single-story panel system buildings were constructed, including a dormitory, dining hall, recreation building, and mosque.

MOBILIZATION CAMP

Sector : Mining
Year : ONGOING
Location : TURKEY

The project, covering a total area of 3,589 m², includes 6 worker dormitories, a workers' lounge, a dining hall, a laundry facility, and a mosque. All structures are being constructed using a single-story panel building system. The project is being executed on a turnkey basis.

CRUDE OIL FIELD

Sector : Oil
Year : 2011
Location : IRAQ

Design and Supply of 5.700 m² containerized mobilization camp building

ACCOMMODATION CONTAINER UNIT

Sector : Military
Year : 2004
Location : IRAQ

Design and Supply of more than 7000 units accommodation containers for Army camp

3GP FUTURE GROWTH PROJECT

Sector : Refining
Year : 2019
Location : KAZAKHSTAN

Design, Supply, Transportation and Installation of offices, mess hall, escape building Scope also includes supply of including Fire Alarm Systems, Fire Suppression Systems, HVAC systems.

INTENSE CARE UNIT (ICU)

Sector : Healthcare
Year : 2020
Location : TURKEY

Design and Supply of fully welded high-tech Medical Container with MEP and HVAC System.

AL MANSURIYA POWER PLANT

Sector : Energy
Year : 2012
Location : IRAQ

Design and Supply of 3500 m² fully welded camp units.

WEST QURNA PHASE 2

Sector : Oil and Gas
Year : 2013
Location : IRAQ

Design, Supply, Transportation and Installation of 2860 m² Accommodation Unit

EARTHQUAKE EMERGENCY HOUSING PROJECT

Sector: Post-Disaster
Year: 2023
Location: Turkey

After massive earthquake, 2069 accommodation containers supplied in 3 months to provide relief in sheltering need in emergency cases with fully furnished as ready to use. Containerized emergency accommodation camps were established in 11 different cities simultaneously.

MODULAR BANK BRANCH OFFICES PROJECT

Sector: Post-Disaster
Year: 2023
Location: TURKEY

Treysan activities to meet all the needs of the disaster area continues rapidly. We organized with our assembly teams in 13 different districts spread over different provinces of the disaster area in a very short time in order to complete the turnkey assembly of the 56 bank branches. Containerized modular bank branch offices are supplied combination of 6 modules with fully furnished as ready to use.

MEVLANA TEMPORARY HOUSING PROJECT

Sector: Post-Disaster
Year: 2011
Location: Turkey

1951 Accommodation Units, 77.500 m² containerized mobilization camp completed in 3 months after earthquake for Turkish Red Crescent.

EARTHQUAKE EMERGENCY HOUSING PROJECT

Sector: Post-Disaster
Year: 1999
Location: TURKEY

100.500 m² Emergency Housing completed in 3 months after earthquake.

YLNG PLANT PROJECT CM2 PACKAGE

Sector : Energy
Year : 2008
Location : YEMEN

Design, Supply, Transportation and Installation of camp buildings over 21.800 m²

HUMBOLT UNIVERSITY CONSTRUCTION PROJECT

Sector: Education
Year: 2022
Location: GERMANY

Multi-storey containerized office buildings is supplied and installed with fully equipment.

CAMP SULLIVAN 3RD PHASE

Sector : Military
Year : 2014
Location : AFGHANISTAN

Design, Supply, Transportation and Installation of a pre-engineered insulated tent structure including containerized storage and office buildings.

MINISTRY OF DEFENCE ACCOMODATION & CARGO CONTAINERS PROJECT

Sector : Military
Year : 2009
Location : TURKEY

Cargo Containers Project (400 units)

SPOTIFY CAMP NOU STADIUM RECONSTRUCTION PROJECT

Sector : Entertainment
Year : 2023
Location : BARCELONA/SPAIN

KHABAT THERMAL POWER PLANT PROJECT

Sector : Energy
Year : 2014
Location : IRAQ

Design, Supply, Transportation and Installation of 14.055 m² panelized system office buildings and camp buildings.

MOSUL DAM PROJECT

Sector : Energy
Year : 2016
Location : IRAQ

Design, Supply, Transportation and Installation of multi story panelized system buildings, living containers and pre-engineered steel structures.

KGM CAMP PROJECT

Sector : Construction
Year : 2023
Location : TURKEY

The project, covering a total area of 5,960 m², includes a kitchen building, a workers' dining hall, dormitories, a laundry room and an office building. The dormitories are constructed using a container system, while the dining hall and kitchen are constructed using a panel building system.

671 MW FAST TRACK TRIPOLI WEST SIMPLE CYCLE POWER PLANT PROJECT

Sector : Energy
Year : 2021
Location : LIBYA

Design, Supply, Transportation and Installation of 10.630 m² single story and multi-story panelized building VIP design office buildings, engineer dormitory, foreman dormitory, labor dormitory, shower & wc building, kitchen & dining hall and mosque.

SOGAZ HIGH-TECH MULTIFUNCTIONAL MEDICAL COMPLEX PROJECT

Sector : Healthcare Complex
Year : 2019
Location : RUSSIA

Design, Supply, Transportation and Installation of over 9100 m² closed area multi story panelized system building and accommodation camp.

TCO ASSETS DEVELOPMENT PROJECT

Sector : Oil and Gas
Year : 2004
Location : KAZAKHSTAN

Design, Supply, Transportation and Installation of over 80,000 m² panelized system buildings for accommodation 8000 people.

SANCAKTEPE PANDEMIC AND EMERGENCY HOSPITAL

Sector : Healthcare Complex
Year : 2020
Location : TURKEY

Design, Supply, Transportation and Installation of high quality hospital building with more than 750 people capacity completed within less than 2 months.

Within the scope of the project, 345 people carried out the assembly operations at the same time in the field, and a total of 1558 tons of steel was shipped for the intensive care units and the core building.

RG RAIGORODOK GOLD MINING PROJECT

Sector: Mining
Year: 2021
Location: KAZAKHSTAN

Single and multi- storey panelized system office buildings, dormitory buildings, social spaces, meeting rooms and multi-purpose buildings within the scope of 29.450 m² mobilization camp buildings

SHAHDAG SKI CENTER FACILITY

Sector : Hospitality
Year : 2010
Location : AZERBAIJAN

Design, Supply, Transportation and Installation of over 17.000 m² closed area multi story panelized system building and pre-engineered steel constructions.

MINING CAMP PROJECT

Sector : Mining
Year : 2020
Location : KAZAKHSTAN

Design and Supply of over mobilization camp complex contains multi-story panelized office buildings, LABs, dormitory buildings and dining halls.

ABU DHABI BUSINESS PLAZA

Sector : Construction
Year : 2014
Location : KAZAKHSTAN

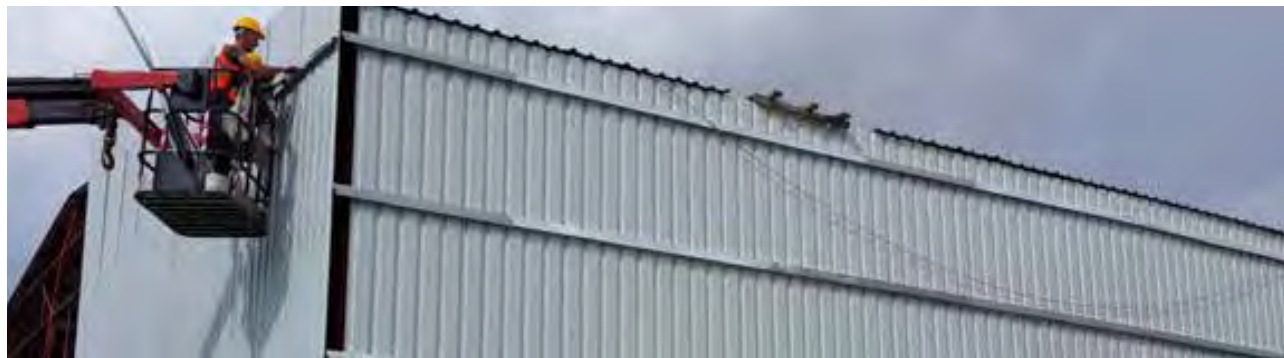

Design, Supply, Transportation and Installation of multi story permanent building camp and panelized system office buildings.

FULL-FLEDGED HOSPITAL COMPLEX IN POST-DISASTER AREA

Sector : Healthcare
Year : 2023
Location : TURKEY

700 tons steel fabrication and 16.950 m² closed area is provided in 2 months 175 bed capacity including intensive care unit, polyclinics, emergency patient and radiology departments with.

MOGLICE DAM AND HEPP PROJECT

Sector : Energy
Year : 2015
Location : ALBANIA

Design, Supply, Transportation and Installation of 10.630 m² single story and multi-story panelized building VIP design office buildings, engineer dormitory, foreman dormitory, labor dormitory, shower & wc building, kitchen & dining hall, insulated and uninsulated storages.

TURKSTREAM ONSHORE GAS RECEIVING TERMINAL SUBSTATIONS

Sector : Oil and Gas
Year : 2018
Location : TURKEY

Design, Supply, Transportation and Installation of fully welded fire rated Substations contain LV Switchgear Container, Battery Room, UPS Container.

Scope also includes Fire Alarm Systems, Fire Suppression Systems, HVAC systems and MEP.

TURKSTREAM ONSHORE GAS RECEIVING TERMINAL CENTRAL CONTROL ROOM

Sector : Oil and Gas
Year : 2018
Location : TURKEY

Welded fire resistant UPS equipment containers and additionally fire detection and fire extinguishing systems, ventilation systems and electrical mechanical systems are also covered within the scope of the project

GBARAN UBIE PHASE 3A PROJECT

Sector : Oil and Gas
Year : 2019
Location : NIGERIA

Design, Supply, Transportation and Installation of E- House
Scope also includes supply of including Electrical Systems, Mechanical Systems, HVAC systems, equipped with medium and low voltage switchgear as well as an uninterruptable power supply system.

FSRU PORT BRUNSBUTTEL LNG PROJECT

Sector: Oil and Gas
Year: 2022
Location: GERMANY

Design and Supply of fully welded E-House Containerized Unit with HVAC, fire suppression system, F&G Electrical system.

MIDIA GAS DEVELOPMENT PROJECT

Sector : Oil and Gas
Year : 2020
Location : ROMANIA

Design and Supply of fully welded UPS Containers.

TANAP SCADA SOLAR TELECOMMUNICATION SYSTEM CONTAINERS

Sector : Oil and Gas
Year : 2016
Location : TURKEY

Design, Supply, Transportation and Installation of 93 modules Scada Containers Scope also includes supply of including HVAC, F&G detection, Fire Extinguishing.

WEST QURNA-2 GAS TURBINE POWER PLANT EXPANSION

Sector : Oil and Gas
Year : 2022
Location : IRAQ

Design and Supply of fully welded 3 different E-House Containerized Units with HVAC, fire suppression system, F&G Electrical system.

CENTRAL SOLAR INVERTER STATION

Sector : Energy
Year : 2018
Location : TURKEY

Design and Supply of 580 m² fully welded Central Solar Inverter Station Containers.

3 KV SUBSTATION

Sector : Energy
Year : 2024
Location : NETHERLAND

In this project, the E-House unit was manufactured using a fully welded system. The project scope included spare parts, transportation, fire detection, and HVAC systems.

VSD FSRU E-HOUSE

Sector : Oil and Gas
Year : 2023
Location : GERMANY

This project, with a total area of 30 m², includes the VSD FSRU E-House unit. The project scope also covered free issued materials (supplied by the client) and transportation services.

3RD BOSPHORUS BRIDGE

Sector : Civil Works
Year : 2017
Location : TURKEY

Design, Supply, Transportation and Installation of VIP Offices and multi story camp buildings.

ÇANAKKALE 18 MART BRIDGE PROJECT

Sector : Civil Works
Year : 2018
Location : TURKEY

Design, Supply, Transportation and Installation of VIP office buildings and mobilization camp facilities.

SALALAH AIRPORT

Sector : Aviation
Year : 2011
Location : OMAN

Design, Supply, Transportation and Installation of 3900 m² VIP design panelized system permanent Engineers Office Buildings.

NASSAU CRUISE PORT

Sector: Entertainment
Year: 2023
Location: BAHAMAS

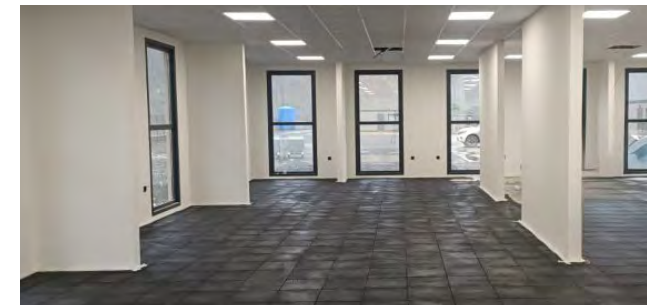

15.600 m² Bahamian Style Buildings; permanent special design new terminal, shops, restaurants, commercial areas, operating buildings, offices, shading canopies

TP-OTC GAS FIELD DEVELOPMENT PROJECT GYM BUILDING CONSTRUCTION

Sector : Oil and Gas
Year : 2023
Location : TURKEY

Our turnkey GYM building project, constructed to VIP design standards, has been delivered with all gym equipment included. The project has been brought to life with a special design approach that prioritises user comfort and aesthetics.

TINRHERT GAS FIELD DEVELOPMENT PROJECT

Sector : Oil and Gas
Year : 2019
Location : ALGERIA

Design and supply of more than 3,500 m² pre-engineered steel structure, including both ISBL and OSBL areas.

AIN TSILA GAS FIELD DEVELOPMENT PROJECT

Sector : Oil and Gas
Year : 2019
Location : ALGERIA

Design and Supply of more than 1600tons Pre-engineered Steel Stucture.

IN SALLAH / IN AMENAS GAS PROJECT

Sector : Oil and Gas
Year : 2004
Location : ALGERIA

Design, Supply, Transportation and Installation of 6400 m² pre engineered steel structures.

RIG CAMPS

Sector : Rig Camp
Year : 2012
Location : ALGERIA

Design, Supply and Transportation skid-mounted fully welded blast resistant containers for land rig and military site.

NORTH MARMARA HIGHWAY PROJECT | Toll Gates

Sector : Civil Works
Year : 2018
Location : TURKEY

Design, Supply, Transportation and Installation of pre-engineered steel structure Toll Gates.
