PESEN
PERFECT CONNECTION

PESEN, which started to operate in 1970, first started to manufacture connection products with copper pipes.

With the influence of developing technology, at the beginning of the 90s, copper pipe left its place in the braided rubber hose in the world, while PESEN, which started manufacturing braided rubber hose with the machine park it brought from Germany, has been the pioneer of this trend in Turkey.

PESEN, which has become a symbol of quality in its sector in a short time with the advanced technology and high-quality raw materials it uses, continues to decorate bathrooms and kitchens in Turkey with its exclusive product range, which it has expanded with shower sets today.

2021

New Factory Opened in Ikitelli, Istanbul

2018

Investment in Engel-E Victory Injection Machines

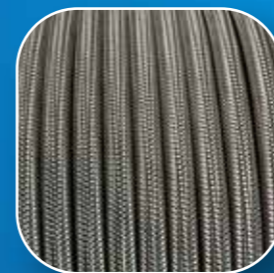

1998

Shower Hose Production Started

1992

Invested in German Technology Machinery

1988

Braided Hose Production Started

1970

Founded in Karaköy, Istanbul

Exports to 5 Continents Started

2020

Wide Shower Set Range Launched

2005

Turkey's Leading Hose Manufacturer

1995

Moved to New Factory in Bomonti

1989

Copper Pipe Production Started

1980

FIX-BOX

BUILT-IN SHOWER SYSTEM

CHECK VALVE
Integrated check valve prevents reverse flow and mixing of plumbing water. Easy maintenance and cleaning with its accessible design.

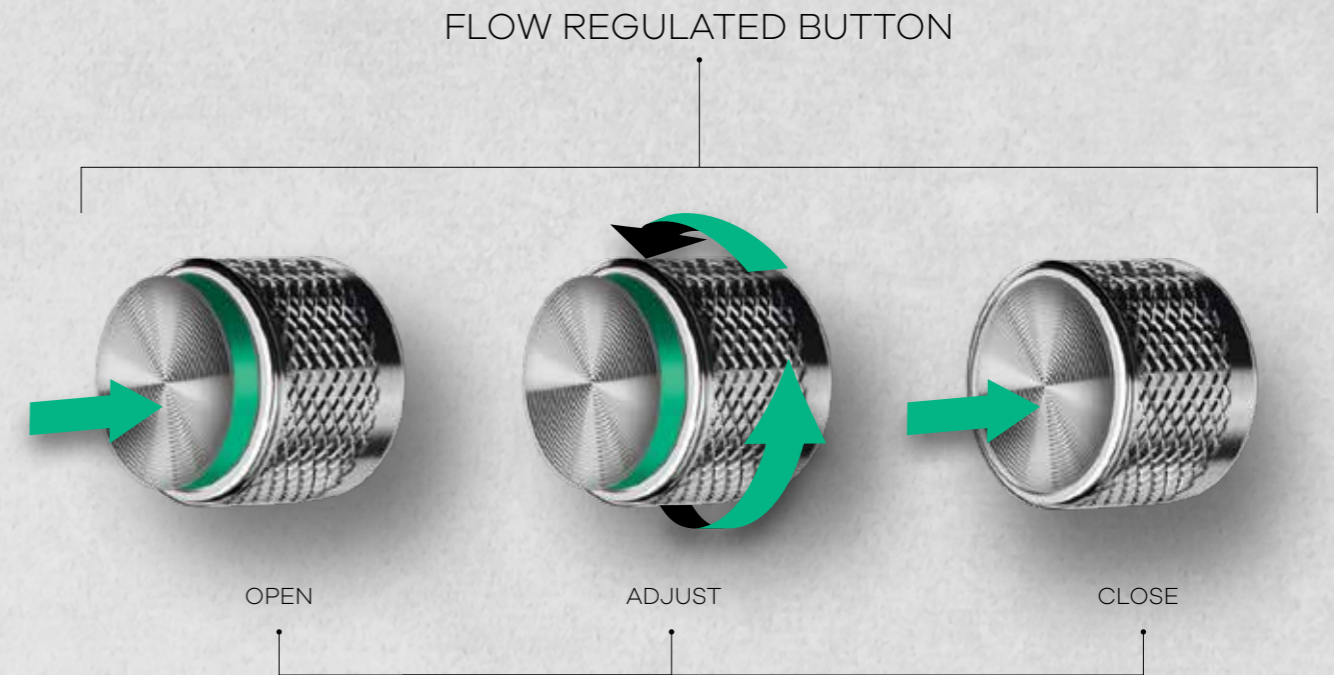

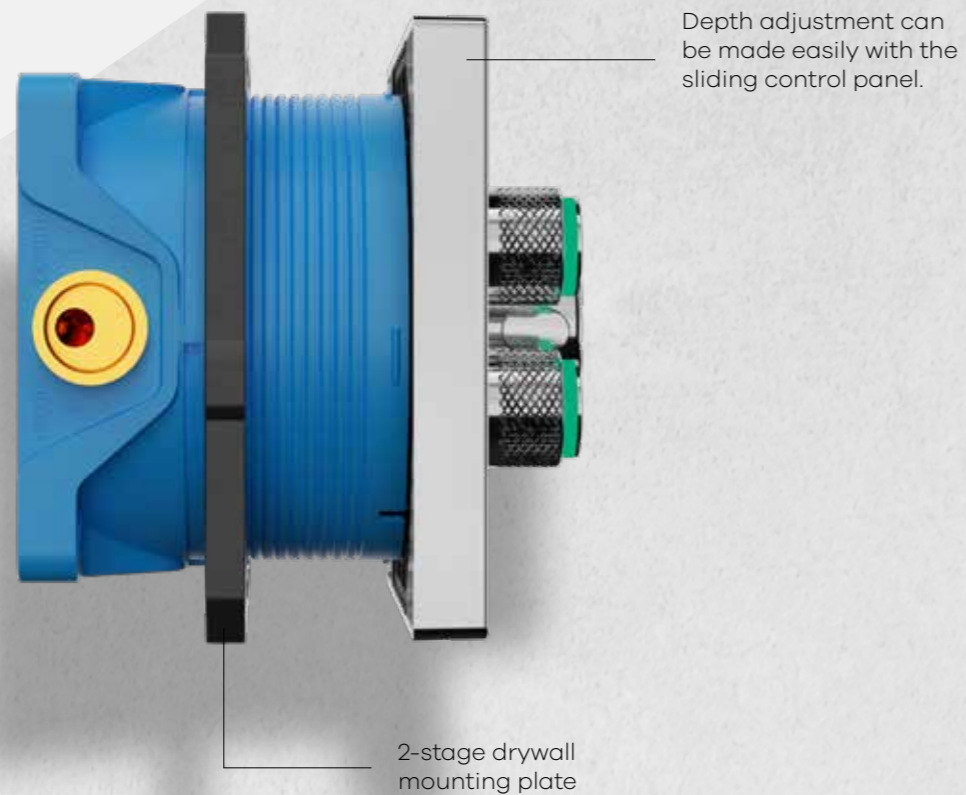

EASY INSTALLATION
Easy and fast installation on brick and plasterboard walls with specially designed body.

52-85 mm
Ultra thin thanks to the body
Up to 52mm depth installation advantage.

STRONG SEALING
The external sealing unit provides complete protection to your wall and installation.

SYMETRICALLY MOUNTABLE

WATER TEST DEVICE

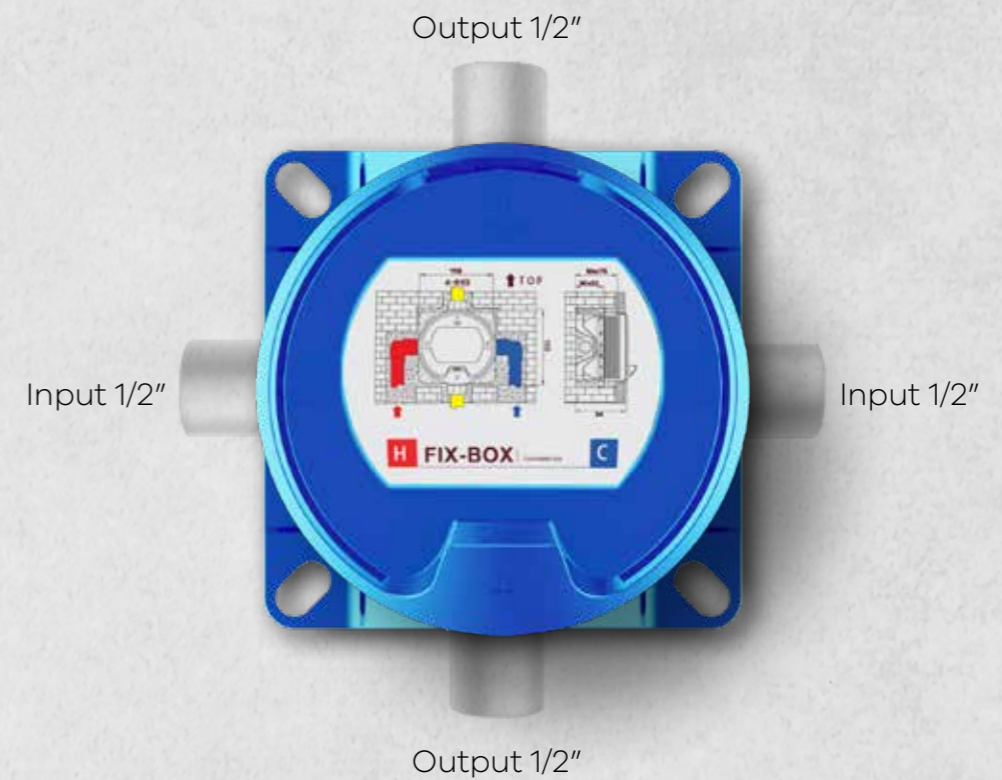

During manufacturing, the water leakage of the installation can be checked with an independent test device.

PROTECTIVE COVER

To prevent construction dust from entering the body during assembly preventing independent protective cover

SPIRIT LEVEL

Thanks to 360° spirit level integrated in the cover, easy and trouble free installation can be made.

SHOWER HOSES EUROLUX

**METALLIZED
GRAY**

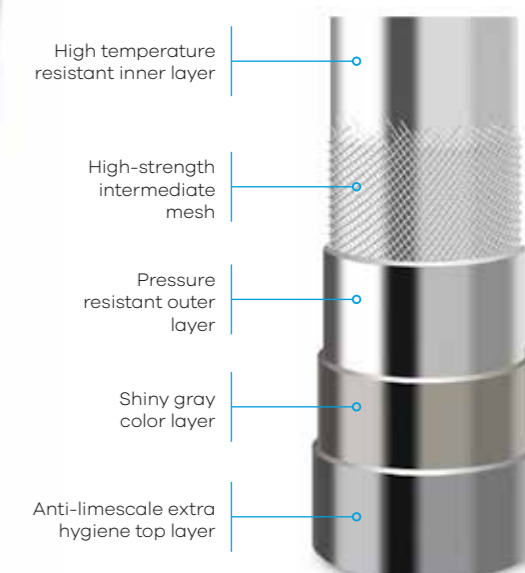

Hygienic

Thanks to its special final layer, it does not hold dirt and lime, it is constantly clean and hygienic.

5 Layer Body

It is resistant to high temperatures and pressures thanks to its reinforced 5-layer body

Anti-Twist

Thanks to the nut that can rotate 360 degrees, the hose does not fold and bend.

Marking

All our products are permanently marked.

Filtered Gasket

The stainless steel filter gasket that comes out of the product extends the life of your shower system and prevents clogging.

Brass Fitting

All fitting parts are made of brass material and 0.25 apm chrome plated.

SHINY GRAY (1/2-1/2)

- 10302005 - 150 cm
- 10302006 - 175 cm
- 10302008 - 200 cm

MATTE BLACK (1/2-1/2)

- 10302013 - 150 cm
- 10302007 - 175 cm

SHINY GOLD (1/2-1/2)

- 10302003 - 150 cm
- 10302011 - 175 cm
