Bodie Plus. Now More Efficient with Next-Gen Circuit Technology

With its enhanced electronic system, Boden is now safer, more durable, and smarter. Here are the key improvements:

- **Auto Shut-Off**
Protects the motor by stopping automatically in case of overload.
- **Overheat Protection**
When the motor reaches a critical temperature, the device temporarily shuts down to prevent damage.
- **Motor Safety**
The upgraded system extends motor lifespan and provides protection against overload.
- **Current Protection**
Shields the circuit from voltage fluctuations, enhancing the safety of both the device and your home.
