TRAVERTINE QUARRY

Travertine Quarry

Our Travertine quarry is located in Kula, Turkey about 130 km to the port of Izmir. Covering an area of 98 acres, going 300 meters deep and with a visible reserve of 250,000,000 m³ probably it's the biggest travertine quarry on Earth. All three main colors of global travertine market are extracted from the same quarry:

Ivory (Extra Light)

Classic Light

Noce

all available as vein-cut or cross-cut. Thanks to a workforce of 150 employees producing 24 hours a day, 7 days a week, CEVAR can guarantee the safe delivery of any quantity with its annual raw material production of 110,000 m³. In addition, as a logistics complement for connecting production with the Port of Izmir, we have our own fleet consisting of 10 trucks.

cemar

COMPANY

Company

Cemar has been mining and manufacturing the highest quality natural stone flooring, natural stone cladding, natural stone exterior applications, handcrafted natural stone products in Turkey.

With More than 250 employees working in our quarries, factories, warehouses, logistic bases and offices located in Turkey and Spain. We are fully committed to providing the highest quality products to meet the highest expectations of our international clients. This commitment to perfection is made possible thanks to our access to our vast natural resources, along with a 100% customer oriented organization.

As a client oriented company we have specialized managers ready to serve our international clients with the utmost professional, detailed, and know how so our clients make the right decisions with the right product to satisfy their clients with a 100% satisfactory.

The guarantee of our brand assures the establishment and sustainment of satisfying long term collaborations with our international clients.

Our Factory is located in Kula, Manisa, Turkey. From here we can offer our international clients the following finishes:
Tumbled, Brushed, Polished, Honed, Bush-Hammered, Split-Face, Cement Filled, Resin Filled, Transparent Resin Filled
