ANADOLU ISUZU

About Anadolu Isuzu

Anadolu Isuzu started manufacturing commercial vehicles in Turkey in 1984. Since then Anadolu Isuzu has been expanding its operations and product portfolio as a publicly traded partnership between the Anadolu Group, Isuzu Motors Limited and Itochu. Focusing on the commercial vehicles segment in the automotive industry, Anadolu Isuzu boasts a powerful product range, effective after-sales services and a broad network of dealerships and technical services. Manufacturing trucks, light trucks, midibuses, buses and pickups, Anadolu Isuzu commands an ambitious position in export markets.

Engaged in the marketing of commercial vehicles as well as their manufacturing, the company has an annual production capacity of 19,000 vehicles in single-shift operation in its 300,000-square-meter plant in Kocaeli. Anadolu Isuzu factory in Turkey is the one and only plant, which has Isuzu Manufacturing Management certificate for truck, pick up and bus production within all Isuzu worldwide network out of Asia which ensures the highest quality and production standards. Anadolu Isuzu serves its customers at 30 sale outlets and 101 after sales service points across Turkey. Not to mention distributorships in more than 40 countries all over the World. Having achieved the largest export turnover in its 24-year export history at the end of 2018, Anadolu Isuzu has declared its 15th midibus export championship the same year.

**BRINGING COMFORT AND SAFETY
TOGETHER, WE KEEP CONNECTING THE
WORLD'S ROADS WITH OUR EXPERTISE.**

Operating as the one and only Isuzu Manufacturing Management (IMM) certified Isuzu factory in Europe, Anadolu Isuzu is shaping the future of transportation not only in Europe but across a wide geography including Middle East and Africa.

LEADER IN EXPORT FOR 15 YEARS

With our existence in over **40+ countries**, Anadolu Isuzu has been the leader midibus exporter of Turkey for **15 years**.

In 2018:

- We broke the exporting record after **24 years**.
- **84%** of our exporting turnover is from Europe.

READY FOR THE FUTURE

As we are growing faster than ever, we keep looking for new partners to be a part of our 2020 goals.

In 2021:

We are planning to reach an exporting network of **60 countries**.

ISUZU CITIPOINT 18

Citiport 18, the big brother of Citiport family, offers a highly functional public transportation tool for the operators and municipalities with a plenty of operational benefits. With its capacity up to 155 passengers, Citiport 18 will be the ideal solution for public transporters and BRT operators who are looking for higher passenger capacities. High engine power (370 HP) and high torque rate offer better fuel efficiency for operators and a higher performance for drivers. Features like full low floor platform, wheelchair ramp (Electrical ramp as an option), kneeling system and passenger friendly interior design make Citiport 18 a barrier-free public transportation solution. In terms of accessibility, Citiport 18 also offers an optional second wheelchair access door and at least 10 seats without any steps. Integrated vehicle design and reliable air suspension system offer a safe and pleasant journey for both passengers and the drivers.

Safety comes as standard on Citiport 18 with EBS, ABS, ASR, and disc brakes. Retarder and integrated CCTV are among other safety and security equipments offered with Citiport 18. Ergonomic dashboard, digital A/C, independent air suspension and heated driver seat helps to create a better working place for the driver. Passenger info screens, passenger counting system and ticketing systems help the driver to concentrate only on road during the ride. Automatic engine oil refilling and automatic chassis lubrications systems are among other optional equipments to increase the maintenance efficiency.

Citiport 18 shares the award-winning exterior design of the Citiport family. Spacious and well-lighted passenger compartment provides a cosy atmosphere for urban service.

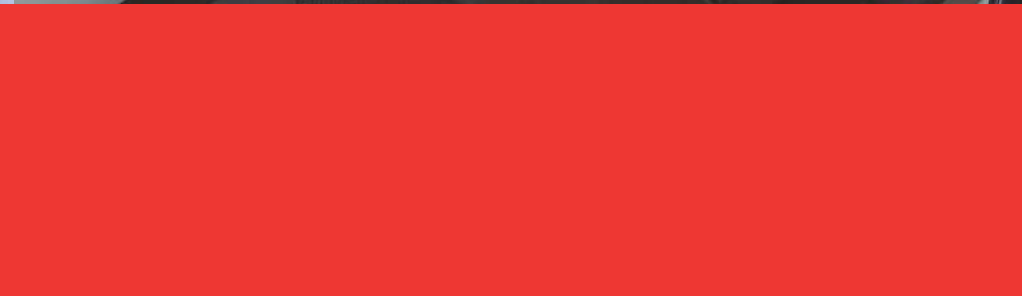

Citiport 18 comes with some innovative features like keyless go, automatic left blinker (While departing the bus stop), interactive info system on cluster, multi-language option, second speed limit option, transmission power mode and a user-friendly "All-in-one button" system for electric ramp, kneeling and sound & visual warnings for the bus while using the wheelchair access.

CITIPOINT 18

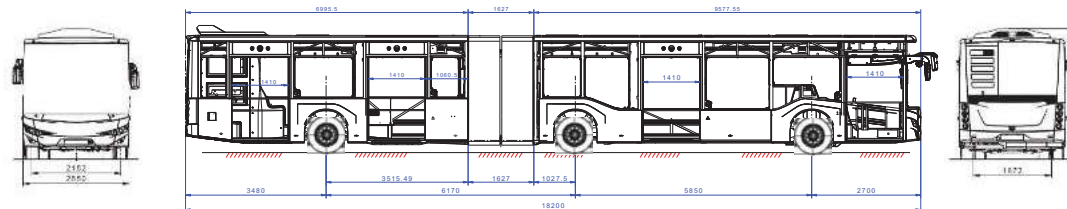

Citipoint 18 shares the award-winning exterior design of the Citipoint family. Spacious and well-lighted passenger compartment provides a cosy atmosphere for commuters.

ISUZU CITIPOINT 12

Taking into account the actual needs of the major metropolises and municipalities, Citiport has been designed in a way to create the concept of "the ideal solution for public transportation". Citiport has an attractive exterior outlook with its outstanding and unique design. Not surprisingly, Citiport was awarded as the most "comfortable and ergonomic bus of Europe" in 2015.

Citiport 12 is powered by Cummins engine which produces 300 HP and 1200 / 1100 – 1600z NM torque. Powertrain is well supported by ZF Ecolife full automatic transmission, which secures an excellent traction and a smooth driving experience.

Low floor platform, spacious interior layout, kneeling system and an easy-to-use wheelchair ramp enhance the accessibility of the vehicle and allows a barrier-free journey for all passengers.

EBS, ABS, ASR, integrated retarder, hill holder, independent air suspension and integrated CCTV system allow a safe ride for the driver and the passengers in intense city traffic.

Ergonomic dashboard, heated driver seat, driver cabin, digital A/C, passenger counting system and optional automatic engine oil refilling system significantly enhance drivers comfort.

ISUZU CITIBUS

Anadolu Isuzu's 9,5 meter public transportation bus is designed to meet the requirements of old metropolises with narrow streets and for those smaller municipalities which have to serve in several transit routes including urban areas with lower populations. Today, on the other hand, most of the larger municipalities have also begun to invest on smaller buses as an economical option for their regular transit routes.

Increasing complexity of public transportation networks in modern cities arise the need for more economical transportation investments all around the world. Connecting various ways of transportation within cities through the most economical way possible, is one of the most important tasks of modern municipalities. Compared to bigger transit buses, Citibus offers the most ideal solution to modern cities, by providing exceptionally lower investment and operational costs, higher levels of agility and maneuverability, and the optimum capacity for passengers.

Cummins engine in Citibus produces 211 PS and the bus has Allison T 280 R automatic transmission.

Spacious interior layout, kneeling system and an easy-to-use wheelchair ramp enhance the accessibility of the vehicle and allows a barrier-free journey for all passengers.

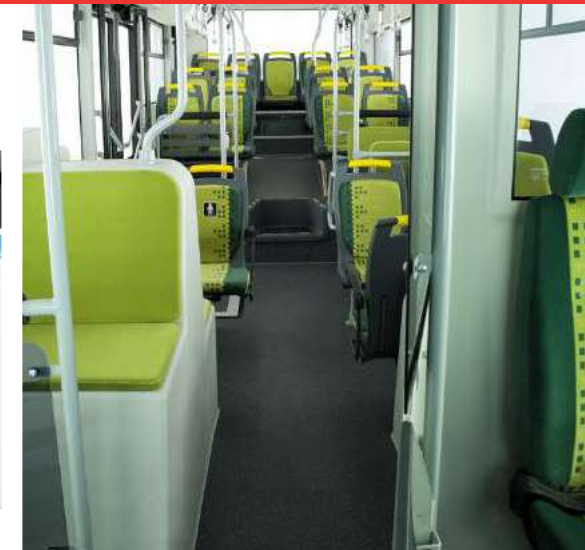

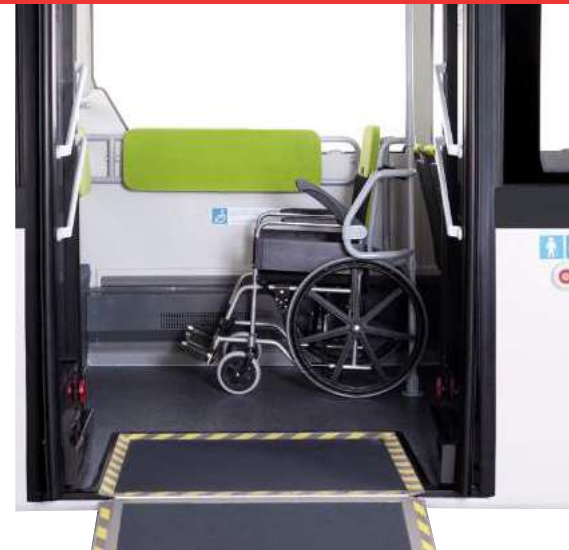

EBS, ABS, ASR, integrated retarder, hill holder, independent air suspension and integrated CCTV system allow a safe ride for the driver and the passengers in intense city traffic.

Ergonomic dashboard, heated driver seat, driver cabin and digital A/C significantly enhance drivers comfort.

ISUZU NOVOCITI LIFE

Novociti Life is a brand new, modern and efficient partner for public transportation operators. Thanks to its low floor platform, Novociti Life removes out all transportation barriers for the handicapped and the elder passengers. As the engine moved to the rear of the bus, it offers a more comfortable and less noisy travel experience to its passengers. Entrance door at the front of the vehicle offers convenient access and payment for passengers while it provides drivers with the means to check passengers who get on/off the bus without any distraction.

Hi E-SCR technology: Enhanced energy efficiency and fuel economy with EGR-free 186 PS Fiat Powertrain and collaboration of several transmission options: ZF Manuel Transmission or 2 different version of Allison automatic transmissions (2100 and 3270R). Having been awarded by A'Design as the "Good Design Award" in 2017, Novociti Life design concept targets a more spacious and well-lighted environment for passengers it is suitable for intense use.

Now, Novociti Life comes with the "Premium" version to meet the needs of European urban life style. With more stylish front and rear headlight units and a fancier touch on the interior design, Novociti Life Premium is ready to address higher expectations of European public transporters. "Premium pack" features include new front and rear headlight design, premium material and design for air ducts and the ceiling, wooden-effect floor covering, LCD unit with new ABS frame, polyurathene dashboard, electric roller blind, an alternative color for driver cabin, ISRI driver seat with heater, one of the best ADAS solution devices in transportation sector - the Mobileye (optional - Lane Departure Warning with sound and vibration / Pedestrian and Bicycle Collision Warning / Forward Collision Warning), premium side wall coating and USB units, alternative material and pattern for passenger seats, alternative color for handrail tubes, triple handrails and backrest units for standing passengers.

ISUZU NOVOCITI

Anadolu Isuzu's solid medium size coach is also available with a Class 1 version for inner-city public transportation. Novociti is a result of nearly 35 years of design and manufacturing experience of Anadolu Isuzu and it is powered by world-famous Isuzu engine which produces 190 PS at 2600 RPM. Novociti provides sufficient traction power for inner-city use with its 510 NM torque rate between 1600 – 2600 rpm. Thanks to its compact size and smart design, Novociti provides an easy drive even in the narrowest streets of the old metropolises. The spacious interior design gives enough space for up to 55 passengers on transit lines.

Novociti offers a safe and comfortable journey for its passengers and the driver. In order to maximize the comfort of driver, Novociti is designed with an ergonomic dashboard with a driver-friendly instrument panel, hydraulic power steering, a shelf above the driver seat for his/her private use and timer-adjusted heated driver window. ABS, disc brakes, retarder and rear air suspension are among other equipments which assure a safe and comfortable trip for the passengers.

NOVOCITI

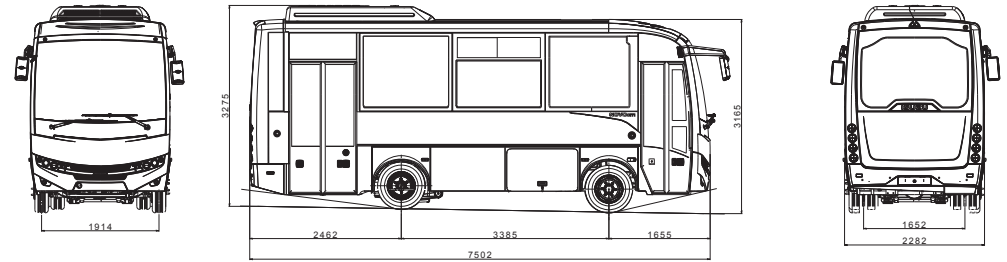

Anadolu Isuzu cares the ones behind the wheel, the ones who spend most of their time on the roads... The ones who work with full commitment to ensure a safe and comfortable journey for passengers. We believe that the driver's comfort and the safety on board is essential for a safe and pleasant journey.

ANADOLU ISUZU

ANADOLU ISUZU

About Anadolu Isuzu

Anadolu Isuzu started manufacturing commercial vehicles in Turkey in 1984. Since then Anadolu Isuzu has been expanding its operations and product portfolio as a publicly traded partnership between the Anadolu Group, Isuzu Motors Limited and Itochu. Focusing on the commercial vehicles segment in the automotive industry, Anadolu Isuzu boasts a powerful product range, effective after-sales services and a broad network of dealerships and technical services. Manufacturing trucks, light trucks, midibuses, buses and pickups, Anadolu Isuzu commands an ambitious position in export markets.

Engaged in the marketing of commercial vehicles as well as their manufacturing, the company has an annual production capacity of 19,000 vehicles in single-shift operation in its 300,000-square-meter plant in Kocaeli. Anadolu Isuzu factory in Turkey is the one and only plant, which has Isuzu Manufacturing Management certificate for truck, pick up and bus production within all Isuzu worldwide network out of Asia which ensures the highest quality and production standards. Anadolu Isuzu serves its customers at 30 sale outlets and 101 after sales service points across Turkey. Not to mention distributorships in more than 40 countries all over the World. Having achieved the largest export turnover in its 24-year export history at the end of 2018, Anadolu Isuzu has declared its 15th midibus export championship the same year.

**BRINGING COMFORT AND SAFETY
TOGETHER, WE KEEP CONNECTING THE
WORLD'S ROADS WITH OUR EXPERTISE.**

Operating as the one and only Isuzu Manufacturing Management (IMM) certified Isuzu factory in Europe, Anadolu Isuzu is shaping the future of transportation not only in Europe but across a wide geography including Middle East and Africa.

LEADER IN EXPORT FOR 15 YEARS

With our existence in over **40+ countries**, Anadolu Isuzu has been the leader midibus exporter of Turkey for **15 years**.

In 2018:

- We broke the exporting record after **24 years**.
- **84%** of our exporting turnover is from Europe.

READY FOR THE FUTURE

As we are growing faster than ever, we keep looking for new partners to be a part of our 2020 goals.

In 2021:

We are planning to reach an exporting network of **60 countries**.

ISUZU VISIGO

Visigo is powered by Cummins engine which produces 250 PS. ZF automated transmission is standard.

With the passenger capacity up to 39 seats, Visigo's interior layout offers a high level of comfort to its crew and passengers, just like a full-size coach.

5.5 m³ luggage compartment makes the vehicle an ideal partner for medium-haul journeys and excursions. The driver's comfort and safety on board are essential for a safe and pleasant journey. That's why Visigo's driver compartment is designed in a way to assure them both. Individual AC system for drivers, automatic driver window, DRL lightning equipment, AEBS, LDWS are only a few of the features that make life easier and safer for drivers.

Visigo offers the maximum level of comfort for its passengers as well. The passengers enjoy a spacious and luxurious interior design. Comfortable passenger seats and premium comfort equipments, one-touch digital and integrated air conditioning system, refrigerator, 7 inch touch screen on dashboard and WC unit option turn the longer-haul routes into an unmatched experience for the passengers and the driver.

Stylish and modern exterior design of Visigo Hyper is officially acknowledged by A'Design Platinum Award in 2018. Visigo Hyper's design differentiates from its counterparts by its elegant and aerodynamic outlook, distinguishable parking lights and wide passenger windows, which allows a well-lighted passenger compartment.

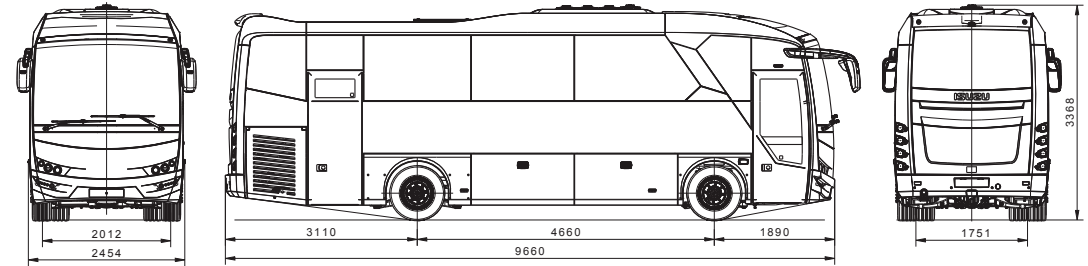

VISIGO

Visigo is powered by a Cummins engine 250 PS, in collaboration with ZF automated transmission, 6 forward and 1 rear gear selection.

VISIGO INTERURBAN

Visigo Interurban's modest interior design and equipments provide a pleasant journey for sitting and standing passengers on suburban routes. Besides, wheelchair lift and lift door highly increase the accessibility of the vehicle.

Anadolu Isuzu the one and only "Isuzu Manufacturing Management (IMM)" certified Isuzu factory in Europe.

ISUZU TURQUOISE

Anadolu Isuzu's tested and trusted medium-size coach is powered by Isuzu engine, which produces 190 PS at 2600 rpm. Turquoise offers a pleasant journey to the driver and the passengers with its stylish interior design and its wide spectrum of comfort equipments. Combining the advantages of a minibus and a full-size coach in a smart "midi" concept, Turquoise becomes an ideal partner for short and medium-haul local transportation, panoramic tours and excursions. With its seat and luggage capacity up to 33 passengers, Isuzu Turquoise offers a high level of comfort just like a full-size coach, while it operates as economical, manoeuvrable and versatile as a minibus in urban traffic.

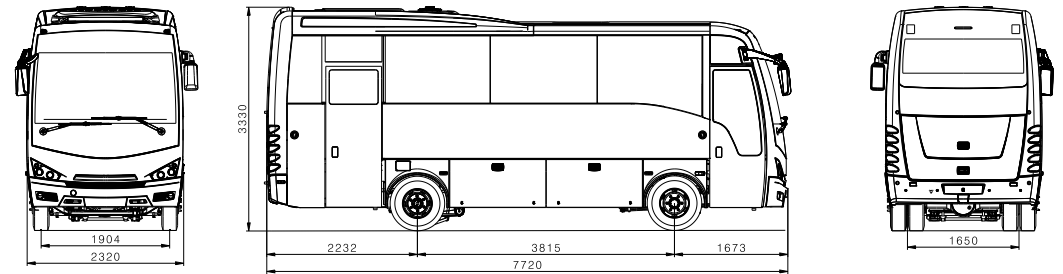

Anadolu Isuzu cares the ones behind the wheel, the ones who spend most of their time on the roads... The ones who work with full commitment to ensure a safe and comfortable journey for passengers. We believe that the driver's comfort and the safety on board is essential for a safe and pleasant journey. That's why, Turquoise is designed in a way to offer the best working place for the drivers: Air actuated and adjustable driver seat, an ergonomic dashboard with a driver-friendly instrument panel, a tilt and telescopic power steering, a locker above the driver seat for his/her private use and an additional exterior mirror for ensuring the perfect rear vision are all standard for the drivers of Isuzu Turquoise. DRL, AEBS, ABS ASR, ESC braking systems and rear air suspension are among other features which secure a safe and comfortable journey while travelling with Turquoise.

The comfort level for the passengers is doubled with the VIP version. WC unit, 2+1 passenger seat layout, heater on door steps and a more stylish upholstery for the seats and the interior makes the journey a more pleasant experience for the passengers.

Anadolu Isuzu the one and only "Isuzu Manufacturing Management (IMM)" certified Isuzu factory in Europe.

ISUZU NOVO ULTRA

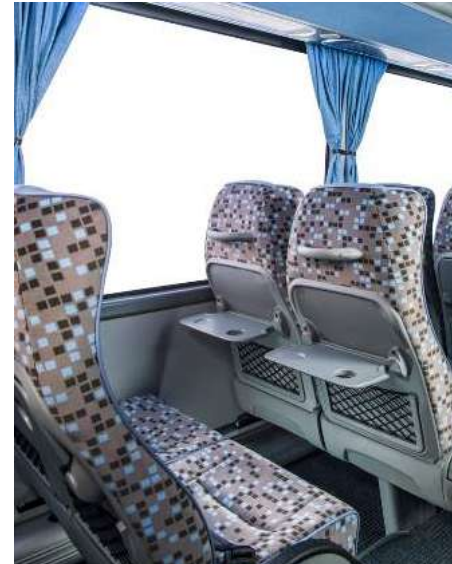

Europe's leading medium-sized bus and coach builder, Anadolu Isuzu is proud to present Novo series midibuses. Novo series medium-size coach family has been serving the European markets for more than a decade.

Anadolu Isuzu's well-known medium-size coach series is simply glamorous with its new exterior view. Both interior and exterior of Novo and Novo Ultra models have been redesigned following a comprehensive customer research programme. Isuzu engine for Novo series produces 190 PS at 2600 RPM. Novo series buses offer seat and luggage capacity up to 29 passengers.

Novo series buses are offered in two different versions, one at a "Standard" and the other at "Ultra" comfort level. The interior design, rear suspension, brake system and the comfort equipments of these two versions are designed differently, reflecting the requirements of different areas of use. Isuzu's world-class powertrain, top quality engineering and state-of-art exterior view, on the other hand, they are completely same in both Novo and Novo Ultra.

Wide door thresholds and a spacious aisle significantly increase the accesibility inside the bus.

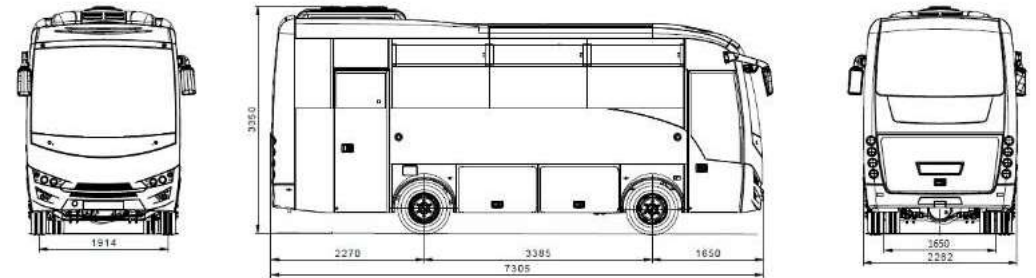

NOVO ULTRA

Europe's leading medium-sized bus and coach builder, Anadolu Isuzu is proud to present Novo Series midibuses. Novo series medium-size coach family has been serving the European markets for more than a decade.
